

PROFILE

Product marketing and marketing analytics professional with 10+ years of experience across digital health, mHealth, and behavioral health strategy. MBA candidate with dual concentration in Marketing & Information Systems and a track record leading go-to-market execution, UX research, and data-driven product operations across B2B and B2C channels.

EDUCATION

Fordham University – Gabelli School of Business — New York, NY

MBA, Marketing & Information Systems - May 2026

Honors: ROMBA Fellow; Dean's Scholar | Activities: VP, Gabelli Healthcare Association

The New School for Social Research — New York, NY

MA, Psychology (Experimental Research)

PROFESSIONAL EXPERIENCE

MedCASH Solutions, Inc. — New York, NY

Product Strategy Manager | 2025–Present

- Lead product marketing for MedCASH, a healthcare-fintech wallet that converts cashback rewards into health-only savings; develop segmentation, positioning, GTM plans, employer pilot outreach, content calendars, launch assets, and KPI tracking.
- Own end-to-end product development workstreams, translating health system stakeholder needs into adoption-ready requirements, workflow maps, and MVP scope.
- Synthesize qualitative and quantitative inputs into roadmap priorities, pilot design, and go-to-market sequencing for health system and employer partners.
- Partner with legal and compliance teams to ensure review-ready deliverables that support enterprise adoption and regulatory alignment.

Research Foundation of CUNY – Hunter College — New York, NY

Senior Program Manager, Behavioral Health Strategy | 2020–2022

- Designed patient-centered research frameworks and mixed-methods user studies that informed product requirements and program positioning for digital behavioral health interventions.
- Led cross-functional teams executing digital health pilots, managing stakeholder alignment, scope, and delivery timelines across provider and consumer-facing channels.
- Built ROI and performance frameworks that translated program outcome data into scale-up funding proposals, supporting renewed investment and stakeholder buy-in.

Partnership to End Addiction — New York, NY

Senior Research Associate, Digital Health Strategy | 2017–2020

- Managed a \$10M SAMHSA-funded digital health initiative, overseeing vendor coordination, compliance, timelines, and stakeholder deliverables while exceeding service targets by 126.5%.
- Led UX research and A/B testing for an mHealth app, identifying friction points and driving a 22% improvement in user compliance through iterative product design.
- Collaborated with Northwell Health on a D2C telehealth app; facilitated 5 regional focus groups with 75+ providers to assess market readiness and translated VBP adoption data into strategic recommendations for health system partners.
